| Aim of the project and planned outcomes |
| <p>The project title is "Student-centered approach implementation into curricula development and delivery"</p> |

The project objective is increasing educational quality and student employability through the development of staff capacity on implementation of student-centered approach.

Planned outcomes of our project are:

- Development, publication and dissemination of methodical guidelines "Student-centred education".
- Conducting three training workshops devoted to student-centered study and competence-based approach.
- Building the competences in the LPNU teaching staff
- Developing the educational programs by using competence-based approach in economics and management institute LPNU.
- Disseminating the experience of development of educational programs using competence-based approach to other LPNU institutes.

The expectations from the cooperation with the UK university

- Learning how student-centered approach is implemented in building the curricular and its delivery in the UK Universities
- Understanding the approaches to building and delivery of educational programs using the competence-based approach in the UK Universities
- Learning how internal quality systems are functioning in the UK Universities
- Attending the lectures and practical lessons at the British university in order to get example of modern teaching methods
- Exploring the mechanisms for the attracting the employers and other stakeholders to building and delivery of educational programs.
