## Committee Formation Requirements and Criteria for evaluation of applications:

Applications for participation in the pitch will be selected by the British Council. Applications for the final competition will be evaluated by a panel of representatives of the British Council, the partner organization and authorities.

**Criteria:** The overall project estimate consists of the following criteria:

- 1) Clear aim, outcome and strategy – whether the essence of the project is clear, whether it is social, whether it will have results that develop the whole community, whether it is concrete and measurable. The aim is also evaluated by the SMART system (details – <https://uk.wikipedia.org/wiki/SMART>);
- 2) Relevance to AC priorities (intercultural dialogue, community development, inclusion) and competition criteria – does the project develop the community, improve the lives of residents, involve local authorities, strengthen social cohesion, promote inclusion, etc.;
- 3) Reasonable budget – whether the financial part is properly technically calculated, whether it meets the objectives of the project, whether there is an own contribution to the project;
- 4) Impact – how the project involves community members, representatives of local authorities and other non-governmental organizations;
- 5) Cooperation with the authorities – have you approved with the authorities to receive the support, will funding be provided, or have all stages been agreed upon?
- 6) Audience reach – how many people will be covered by the project, what target audiences will it attract and what impact will it have on them,
- 7) Sustainability – will the project continue after the completion of funding, how will it develop further?

Each criterion has an equilibrium effect on the overall score. The rating system is implemented from 0 to 10, where:

0 - do not meet a criterion;

2-4 - low compliance with the criterion;

6-8 - medium-high compliance with the criterion;

10 - maximum compliance with the criterion.

**The evaluation process and the results: The final score will consist of the average score of the committee (70%) and the results of online voting (30%).** According to the results of the total evaluation of the committee and online voting, about eight projects will receive funding. Voting will last for a week and will take place on a separate platform (<https://activecitizens.in.ua/>). After the closing of the voting, the projects will be presented in front of the committee and summed up. Information on the evaluation will be published on the website of the British Council in Ukraine.

These circumstances include events that occur independently of the will of the organizers or participants of the local pitch, i.e. which the organizers or participants cannot influence and / or are beyond their control, and therefore those for which they cannot be held responsible. These circumstances include, but are not limited to, natural disasters (such as earthquakes, floods, floods, freezing, etc.), fires, other natural disasters, and social cataclysms, strikes, acts of terrorism, hostilities, wars, and so on.
